

## **Sidney G. Webber, CPCU, ARM**

Since 1989, Mr. Webber has been a Consultant with Interisk Corporation, Tampa, Florida providing insurance and risk management consulting services to medium and large size corporations, government entities, institutions and associations. His fifteen years of experience in the risk management field include serving as Risk Manager for large industrial, construction and environmental firms. He has extensive knowledge in risk financing techniques, including the establishment and administration of association captives, single parent captives, large self-insured retention programs and the placement of complex insurance contracts. He helped establish a safety and loss control program that is highly recognized throughout the industry and has first hand experience in the operation of a corporate disaster and environmental program.

Mr. Webbers's accomplishments include directing the administration of over 3,000 workers' compensation claims with a total incurred value of approximately \$15 million. Approximately 97% of the claims were successfully concluded at a loss ratio far below industry standards. Effective use of Florida's Second Disability Trust Fund Program resulted in approximately \$750,000 being recovered from the state. He has thorough knowledge of electronic data processing, including experience in programming and operating systems ranging from super main frames to personal computers. He has developed many software packages to facilitate the risk management process.

Mr. Webber has a Bachelor's Degree in Accounting for the University of South Florida and holds the Chartered Property and Casualty Underwriter (CPCU) designation. He also has an Associate in Risk Management (ARM) designation. He has frequently served as an instructor in the CPCU program and is a past President of his local chapter.
